

Riding at anchor or under way, weather trends and time are ever important and interesting to the boatman. When he has an Airguide Barometer and Clock, he has quality equipment. Any gift occasion for a boat owner is a happy one if he receives one of these sparkling Airguide models. Single unit or matched pair, resting in the proper smooth grained walnut base, makes a welcome desk accessory for use ashore or afloat.

The variety of designs with reasonable prices makes the Airguide line of Barometers and Clocks particularly attractive to the increasing number of cruiser owners.

No. 211 • MARINE BAROMETER

Traditional hanging-type barometer that maintains its popularity and wide acceptance year after year. Compensated for temperature variations. Calibrated in both inches and millibars. White-coated brass dial. Natural polished solid brass case, 4½" in diameter. **\$16.00 Retail**

No. 214 • MARINE BAROMETER

A fine instrument always alert to forecast even slight changes in weather trends. Compensated for temperature changes to provide maximum accuracy. Large aluminum dial carries black lithographed details on white background. Calibrated in both inches and millibars. Very easy to read. Case available in choice of two finishes. Same size as Jeweled Contralog Speedometer, 5" in diameter. No. 214-B polished brass finish; No. 214-C polished chrome finish. Each, **\$15.00 Retail**

No. 1214 • MARINE CLOCK

Perfect companion to the No. 214 Barometer, with same case specifications. Dial, scaled to both 12 and 24 hours, also indicates three 4-hour "watches." Red hour hand, black minute hand. Fine 8-day, 7-jewel movement, stem-wound. No. 1214-B polished brass finish; No. 1214-C polished chrome finish. Each **\$30.00 Retail**

No. 9-W • DOUBLE BASE (base only)

Simple, inexpensive and smart way to convert wall type marine instruments into a distinctive time and weather set for cabin, home or office desk. Beautiful satin finished walnut case accommodates matching Airguide Marine Clock and Barometer units Nos. 1213 and 213 (illustrated) or Nos. 1214 and 214. Specially selected walnut grain sets off brass or polished chrome. 13¾" wide, 2" high, 2½" deep. Base only, **\$6.50 Retail**

No. 10-W • SINGLE BASE (base only)

Similar in styling and finish to No. 9-W, but accommodating any one of the following Airguide marine instruments: Nos. 213 or 214 Barometers; Nos. 1213 or 1214 Clocks. (No. 213 mounted on base in illustration.) 7½" wide, 2" high, 2½" deep. Base only, **\$4.00 Retail**

Marine Clocks subject to 10% Federal Excise Tax

No. 213 • MARINE BAROMETER

Same superb instrument as the No. 214, but with helm spokes around case for added nautical touch. Overall diameter 6". Available in two finishes: No. 213-B polished brass finish or No. 213-C polished chrome finish. Each, **\$18.50 Retail**

No. 1213 • MARINE CLOCK

Identical with No. 1214 Marine Clock, except for spokes to match the attractive No. 213 Barometer. Overall diameter 6". Choice of No. 1213-B polished brass finish or No. 1213-C polished chrome finish. Each, **\$33.50 Retail**
